

Northampton & District Fuchsia Society

NEWSLETTER

SEPTEMBER / OCTOBER / NOVEMBER / DECEMBER 2019

FDITORIAL

A warm welcome to new members at the start of a fresh, new fuchsia year.

Firstly, an apology to Jerry and Pat Leahy who submitted an article that just missed the Autumn 2018 issue. They will have looked in vain for it in the next two issues as I forgot about it but here it is at last. I have no excuses as I am hardly inundated with material for publication.

This is the usual bumper issue with all the Show results and pictures. They begin on page 5 with the Trophies and Special Awards. As I type out the results I always feel inspired to grow some fuchsias for showing – one year I might actually do it! Bob has filed his Show Secretary's report on page 11.

Our second show at St Crispin Social Club. What a good one again! Sadly a few exhibitors' names were missing but still an excellent display. Planning is already in place to return there next year.

As well as our own show results there is also a report of successes by our members at the Nottingham show and the BFS London and Midland Shows on page 16.

The period covered by this newsletter includes our Annual General Meeting – there is a notice and agenda on page 13. Don't forget to tell Marilyn in good time if you have a proposition or want any matters discussed under Any Other Business. And do not forget to bring this newsletter to the AGM.

Also it is the time to renew our subscriptions – you will find a form on page 17 to cut out and send to Peter Pettitt with your money.

For those of you who do not receive the BFS Fuchsia News there is information about the Roadshow on page 13 and also the 24th Autumn Gathering on page 15.

From Dot Leeke we have the usual reports on the meetings with speakers. For all the beginners and novices, like me, there are some tips on growing fuchsias at this time of year (on page 12).

HOSTAS with COLIN BAINES Meeting – 7th May 2019

The May speaker was Colin Baines who told us all about Hostas.

They were introduced into Europe in the 1800's from Asia and Japan so are used to the colder conditions we have in the UK. They can be grown in full sun, shade or deep shade but, whatever the position, they all like lots of water. They all produce flowers, some more than others, but generally they aren't needy plants. They like a light feed for colour and growth in the spring and one for their roots in autumn.

They are easy to propagate, the easiest method being to split the plant with a knife, which most growers do in winter, but Colin does his in summer as the plant recovers quicker thus giving better plants for the following season. They can be reproduced by seed which is quite difficult and used more by commercial growers. Also there is microculture which produces hundreds of plants though the young plants can be very weak to begin with.

NENE VALLEY ORGAN & KEYBOARD CLUB

For over 35 years NVOKC have been producing electronic organ and keyboard shows to the public on the 3rd Monday of the month.

Top international artistes are presented, performing a wide range of music on state of the art instruments.

A NVOKC show is a superb evening for all in the comfortable surroundings of the Plough Hotel, Northampton NN1 1PF

Come along and join us one Monday.

Doors open at 7.15pm. Start 8.00pm. Finish 10.30pm.

For any further information call Matthew Bason 01933 420130

Hostas are very prone to slug damage. Colin uses slug pellets for commercial purposes other although there are environmentally friendly methods such as copper tape or petroleum jelly around the tops of pots. Once the hostas are up spraying with a garlic wash is very effective. Recipe:- crush 2 bulbs of garlic in 2 pints of water and boil for 2/3 minutes until blanched; remove garlic by straining the mixture and make back up to 2 pints. Leave to cool. When ready to use, mix one tablespoon in five litres of water and sprinkle on to leaves in late afternoon (in dry weather). Re-apply every two weeks. The mixture dries on the leaves making them unappealing to slugs and snails! When the slugs come into contact with the oil in garlic they begin to secrete more mucus. Over time, the slugs will die as they dry and shrivel up from too much mucus secretion.

There is also the lovely tale told to Colin by an old grower who said slug treating should be done on 14th February as it is Valentine's Day when slugs are coming out looking for love.

Vine weevil is also a problem as in Fuchsias and should be treated in spring or autumn to get the larvae. There is also a virus – Hosta Virus X - but this is not common in the UK at present. (It seems to be prevalent in America – what a surprise! – Ed.)

It was a very interesting and enjoyable talk and I hope those of you purchased a hosta or two are enjoying them in your gardens.

Dot Leeke

A LETTER FROM JERRY & PAT LEAHY

Hello Bob

Pat and I had a brief holiday in Yorkshire after the Yorkshire 3 Peaks walk.

I've drafted the following for those I've told about the walk.

Pat and I have had a short break in Yorkshire, which included the Yorkshire 3 Peaks walk in memory of our granddaughter, Charlotte, who had a severe stroke in January, and died. Liz and Gary, her parents, and Andy, her husband, and 26 of her friends, took part in the walk.

The 24 mile walk to the peaks of Pen-y-Ghent, Ingleborough and Whernside started with heavy rain at 6.15am on 19th August. The walk had to start early because it takes over 12 hours to complete. The weather on the day was awful, cold wind, constant rain and limited visibility because of low cloud. At times, the cloud base was so low we couldn't see 50 yards up the roads we were on and we didn't see any of the three peaks.

Pat and I didn't take part in the walk, as we provided a support vehicle, so our car was full of bottles of water because of the recent hot weather (but no-one wanted water on the day because of the awful weather!) and emergency food rations, viz, flapjacks, etc, to provide instant energy for the walkers. We also had to log in all the walkers to ensure everyone would be accounted for as, with the low visibility, it would have been easy for walkers to take a wrong path. There were 29 walkers and everyone had to wear bright pink or purple wings so we could identify them as being part of our group. The wings were meant to be a 'fun' idea and even Pat and I had our wings. We also had a pole with wings flying in the wind so the walkers could recognise us in the

Surprisingly, the wings lasted all day, and kept their colour, so goodness knows what others thought when they saw us! We saw at least 100 other walkers, so our group weren't the only nutters!

Only a few of our walkers completed all three peaks, despite having to walk through swollen

streams and boggy areas. We had a paramedic in the team and a local farmer advised him against walkers being caught on the peaks when paths weren't visible. As a result most of our walkers had to contend with walking only one or two peaks but even that was commendable given the conditions at the time. Some of our walkers are planning to go back another day, when the weather is more favourable, to show they can complete the walk. The walk ended where it started, with everyone soaked to the skin, but with plenty of memories exchanged between the walkers including 'my blisters are worse than your blisters', etc. Yes, there were accidents, and plenty of 'never again' comments, but they'll be back to have another go.

That's Yorkshire folk for you!

This has been a brief account of a memorable day to show how Liz, Gary and Andy, were so grateful to so many of Charlotte's friends for not letting awful weather stop them remembering her.

I hope you enjoy reading this, and if you take your caravan there, you'll enjoy the beautiful, though bleak at time, scenery.

Jerry

(Apologies again to Jerry and Pat for the inexcusable delay in publishing this article – Ed.)

---00000000---

AND A CHANCE MEETING

By chance I met Pat and Jerry Leahy yesterday (31st May 2019) and they expressed a wish to be remembered to all in the Fuchsia Society.

They have ongoing family issues which prevents them from attending meetings but if possible they will come to the show in August. (Sadly I do not think they made it – Ed.)

Best Wishes

Dot

SHOW SECRETARY'S REPORT 2019 St Crispin Show

This year's show at St Crispin Social Club was again a great success and I feel that the show format is just perfect. The number of entries for the show was slightly up on last year and the quality of the plants was wonderful.

We had a steady trickle of members of the public visiting the show and they were very complimentary regarding the fuchsias on display. I was also very pleased to see that almost all of our members contributed to or attended the show.

We had 19 members making 135 entries in 37 classes for the show, which resulted in 154 pots, baskets and exhibits being entered.

All things considered we had a wonderful show and I am very proud of every member who helped to put the show together, whatever was asked of them they performed in a very friendly, efficient manner.

Bob Malin

Show Secretary

HERITAGE OF OUR GARDEN BIRDS with CHRIS EDWARDS Meeting – 4th June 2019

We had another fascinating talk about birds tonight from Chris Edwards but unfortunately it will be his last as he is retiring and moving house.

Birds have been around for millions of years and have been depicted in many ways mythologically as birds of wisdom, the falcon, or to symbolise bravery and strength like the raven.

They are providers of food, chickens providing 20% of our protein intake. Blackbirds were hunted for food until the 1940s. In 1370 they were worth 6d each, in 1570 10d and in 1633 a shilling.

Birds have been a great inspiration over the years for artists, sculptors and musicians, probably the most memorable being the Crown Derby depiction of the Puffin, Keats' Ode to the Nightingale, Shelley's Skylark, Ted Hughes' the Crow, the Cuckoo in Beethoven's Pastoral Symphony, Rossini's Thieving Magpie and the Starling in Mozart's Pastoral Symphony in G Major. A more modern reference is Blackbird by the Beatles from the White Album. Pop groups names have also been inspired by birds, e.g., The Byrds and The Eagles.

There are 3,000 pubs in the UK with bird names, 600 of them incorporating Swan in some form.

Blue tits used to be trapped in orchards because it was thought they destroyed the blossom. Chaffinches were caught for singing competitions and goldfinches were said to bring good fortune.

Chris told us lots more fascinating facts too numerous to remember and the talk was interspersed with pictures and birdsong.

A smashing evening.

Dot Leeke

GROWING YOUR FUCHSIAS September through to December

The months of **September** and **October** are a time when we can really enjoy our fuchsias, particularly those that were bedded out for the summer. They should now be in their full glory but remember to continue feeding; this applies to both inside and outside planted specimens. If you do not feed you will find that the flowers grow smaller and fewer but by feeding correctly you will find the flowers continue to be of good quality right up to the first frosts. Remember to pick off the spent flowers, seed pods and yellowing leaves. If you leave the seed pods on, the plant will think that its job is finished for the year and stop producing new flowers.

Watering will be eased considerably as the months' progress with the heavy dews descending and this will create the humid atmosphere that fuchsias just love. Continue to fight the battle against pests, particularly greenfly and red spider.

Cuttings can now be taken provided that a little heat is available; these will make splendid plants for next year but remember we must keep these young plants, once rooted, in green leaf throughout the winter and that means 40-45°F (4-7°C).

Towards the end of **September**, we should be thinking of ripening off our plants for the winter ahead. From this stage, until the sign of the first frosts, our plants under glass should be outside at every occasion for the purpose of ripening the wood. This will enable them to stand a better chance of surviving the winter. Let your plants finish their flowering naturally and when **October** is with us gradually ease off the watering; should the plants need a slight shaping this will do no harm but heavy pruning should not be carried out at this time. Remember also that plants in containers, whether hardy or not, will require frost free accommodation over the winter months.

November; time to start your over-wintering programme. First job is to clean your greenhouse out, always assuming you have one! It is best to remove all your plants out of harm's way; they can easily be knocked over during the cleaning process. All staging, brickwork, glass and glazing bars should be thoroughly washed down; a power washer is ideal for this job if you have one. Take care though as a powerful jet of water can damage woodwork and even crack glass.

One suggestion is to wash down with water first and then go over everything again with a pump spray with diluted Jeyes' Fluid (read the instructions on the container for the correct dilution).

When moving plants back into the greenhouse only take those worthy of being over-wintered.

Fuchsia plants growing in containers, whether hardy varieties or not, must also be given winter protection. A hard frost will penetrate the sides of most containers, clay, wood or plastic, and so kill the roots. If the containers are too large to be moved the plants must be taken out and re-potted into something smaller. All plants in pots should be allowed to dry off until the compost is just on the moist side; the laterals should then be reduced in length by about a half. To over-winter a plant in a 'dormant' state all foliage should be removed and they must be kept in a frost-free store, be it greenhouse, shed or garage. Check the plants regularly to see that they do not dry out completely.

Hardy fuchsias established in the garden should have their laterals reduced in length, again by about a half; this will prevent the wind rocking the plants and causing root disturbance. The remaining shortened laterals will act as a barrier to prevent the frost damaging the crown of the plants.

Triphylla types, e.g., Thalia, Coralle and Insulinde, require more warmth over winter; ideally temperatures of about 40-45°F (4-7°C).

BFS ROADSHOW

The next BFS roadshow will be held on 20th October 2019 at Fairfield Village Hall, Stourbridge Road, Fairfield, Bromsgrove, Worcestershire B61 9LZ. Contact Arthur Phillips on 01527 870012 or email nanart@btinternet.com.

---000000000---

WORKBRIDGE

Meeting - 2nd July 2019

Chloe and Marina gave us a very interesting talk about the history and the principles of Workbridge.

It was set up in 1980 on the site of Northampton Asylum and Northampton Slaughter House. Michael Jones, the jeweller, was instrumental in this.

The aim of the organisation is to help people with learning difficulties, mental illness and brain injuries to develop work and life skills and gain and build confidence. It is a unique environment which allows the service users to develop their skills in a supportive setting which is open to the public.

There is a coffee shop serving home-made cakes staffed by many of the service users. This is a very popular venue for St Andrews staff and the general public.

The garden centre grows quality plants which are grown on in the polytunnel. This too is staffed by some of the service users as well as volunteers and salaried staff. They also sell ceramics and items of woodwork which have been made on site. Fuchsia Society members may remember that they supplied the plants for our show a few years ago and very good quality they were too.

There is also a charity shop selling clothes, house wares, etc, which also very well supported with all profits going to support St Andrews.

It was an interesting talk and Chloe and Marina are obviously very passionate about their work.

Dot Leeke

ANNUAL GENERAL MEETING 5th November 2019

NOTICE OF ANNUAL GENERAL MEETING

Notice is hereby given that the 52nd Annual General Meeting of the Northampton & District Fuchsia Society will be held on Tuesday 5th November 2019 at the Conservative Club, 42 Billing Road, Northampton NN1 5DA commencing at 7.30pm.

AGENDA

- 1. President's Welcome
- 2. Apologies for Absence
- 3. Minutes of the 2018 AGM
- 4. Matters Arising
- 5. Correspondence
- 6. Chairman's Address
- 7. Hon Secretary/Social Secretary's Report
- 8. Hon Treasurer's Report
- Social Secretary's Report

Marilyn Daniels' full basket of University of Liverpool

Wendy Addington was awarded the John Belton Memorial Trophy for winning the Society Plant classes with her entry of Wendy Bendy in class 11

24TH BFS AUTUMN GATHERING!

For many of us the Autumn Gathering is a great way to end the fuchsia season as it is a day that is both social and educational!

So, some more details!

When? Sunday, October 6th from 10am to 4.30pm.

Where? Victoria Hall, Ash Hill Rd, Ash, Aldershot GU12 5DN – there is a small car park beside the hall and a large one just over the road.

What is the format of the day? If you have never been before – the plan is as follows. On arrival everyone gets a cuppa of some sort. We than have two speakers in the morning - each talking for one hour. We then provide you with an excellent cold sandwich/buffet lunch with cold drinks, fruit and cake! Plus, of course, more teas and coffees! In the afternoon we have the final speaker followed by an informal workshop type session where everyone can dip in and out of the chats that the speakers are having – this gives everyone the chance to ask questions ,etc.

Cost? Still only £8.50 per person!

Who are the Speakers this year?

Paul Leatherdale is a new speaker for us and his subject will be 'Encliandras and how I grow them'. Paul is a real enthusiast on these delightful small flowered fuchsias and I know that we will all learn a lot on how to grow them!

Kristopher Harper – is again a newcomer to the gathering and his passion is James Lye that great Victorian hybridiser and grower of fuchsias and that will be the subject of his talk. Kristopher holds the national collection of James Lye's wonderful fuchsias.

Finally, our third speaker is **Ray Broughton** who we have had before on pests and diseases. His talks are both fascinating and an occasion

to learn a lot. He asks that people bring along problem plants from their garden — not only fuchsias - and he will use the microscope attached to his laptop to show us the problem, etc! It is quite fascinating!

So there it is a great day out in Surrey, a chance to meet friends old and new and even to talk about our favourite plant!

Pop a cheque in the post made payable to South of England Fuchsia Fellowship and send it to Carol Gubler, Little Brook Fuchsias, Ash Green Lane West, Ash Green, Surrey GU12 6HL along with a sae and full details will be sent to you early in September. The Closing date for booking is 1st October.

MY TEN FAVOURITE FUCHSIAS REVISITED by Dot Leeke

Dot gave her reasons for choosing her ten favourite fuchsias.

Lancashire Lad, Loves Reward, Red Spider, Hawkshead and Display - I won the novelty class with these; what a show off!

Northern Dancer and Wigan Pier - I had high hopes for these two in the novelty class and tried many times but they never lived long enough to reach the show bench; but I love their delicate flowers.

Dorothy Clive - fancy having a cultivar named after me and Clive.

Dying Ember - has a lovely small, deep red flower; it was given to me by Ray Campbell and grew in our garden for some years but sadly the frost got it one winter.

Celia Smedley - I just love the flowers and George Dawson had a spectacular standard in his front garden; I could only dream of growing a specimen as good as that.

Which are your ten most favourite fuchsias? Perhaps add a little note as to why they are your favourites? Please send your list to the Editor.

---000000000---

Hardy Fuchsia 'Celia Smedley' is a particularly fine variety, bearing masses of large, single flowers with dark pink tubes and currant-red skirts (corollas).

SUBSCRIPTIONS 2019/2020

As we get older the time seems to pass faster and, yes, that time of year is here again.

This is a reminder to all members that subscriptions for the new year's membership are due **before** 1st October 2019. Please pay Peter Pettitt at your earliest opportunity.

Remember, only fully paid up members are entitled to vote at the Society's General Meetings – don't be left out!

Single £12.00 Double £20.00

Please continue to support your Society!

The application form is below. Please cut it out and give it/send it with your cheque/cash to Peter without delay. The address, if required, is on the form.
